

Tom Rumpf
Brunswick
LD 958

Senator Carney, Representative Kuhn, members of the committee,
I urge you to support this bill to provide a balanced and fair approach to eminent domain claims on tribal lands. It restores fairness and respects the sovereignty of the Wabanaki Nations. It encourages collaboration, not conflict, requiring the State to enter into consultation with the tribes if there is a legitimate public purpose to the eminent domain request. It is a small, but positive, step toward justice and fairness. Please support LD 958.
Thank You.
