

Maria Luemba  
Auburn  
LD 943

My name is Maria Luemba and I live in Auburn. I moved to the USA with my children and my husband in 2022. We were new to the country and did not have any clue as to where to start. We applied for TANF and we were referred to Fedcap by the department of Health and Human Services.

We went through the program, we were properly guided and received the required Career Advisory and all the support towards economic self-sufficiency.

We got the employment authorization cards and started applying for jobs. My husband was offered a position at Fedcap as a Career Advisor where is currently working.

We are so grateful for being part of the program as we can now take care of our four children with our own income.

Thanks  
Maria Luemba
