

Ophelia Hu Kinney
Scarborough
LD 1029

Dear Senator Ingwersen, Representative Meyer, and esteemed members of the Health and Human Services Committee:

My name is Ophelia Hu Kinney, and I live in Scarborough. I write as a Christian and faith leader to urge you to support LD 1029.

The purpose of our government is to safeguard the well-being of our people. As such, you have a unique opportunity to help make basic human well-being more accessible for our neighbors with greatest unmet needs.

Many Mainers are unfortunately only one medical bill or car accident away from financial instability. Any of us may one day need to utilize the resources that Mainers have assembled for such a time as this.

Housing, food, and shelter are critical, everyday, human needs for Maine adults and children. I urge you to support LD 1029 to help ensure that we do our best in caring for our neighbors.
