I thank you all for taking the time to read my testimony. I have been in healthcare for over 3 decades and for 8+ years have been involved in deathcare. I am a certified death doula and celebrant, and have been witness to many deaths. For those individuals who have transitioned without discomfort, they are truly blessed to have experienced end of life peacefully. For others who are riddled with extricating pain, debilitating diseases and trauma, I ask you to envision yourself or your loved one in this situation. Allowing physicians to be able to exercise clinical discretion to waive the waiting period, and prescribe for you earlier intervention, is humane. Wouldn't you want this passage from earth for yourself and/or your loved one? Please give this your heartfelt consideration. Thank you.
