I am a Jew. I'm proud of my Jewish heritage, I was bar mitzvahed and I celebrate shabbat every week. I also know that antisemitism has nothing to do with antizionism, and to adopt the IHRA definition would be a tragedy that punishes free speech. To adopt the IHRA definition would be a cowardly decision, one that punishes more Jews than it helps. Please do not adopt this definition, there are other, more helpful ways to stop antisemitism.
