

Jane Robbins
Eliot
LD 1356

I am writing to ask you NOT to vote for LD 1356 An Act to Change the State's Method of Allocating Electoral Votes from a Congressional District Method to a Winner-take-all Method Contingent on the State of Nebraska Changing its Method of Allocating Electoral Votes.”

Our current system gives those of us from the rural part of Maine a reason to vote. If it's a winner-take-all, the people in the cities will control our State since the urban population outnumber those of us from the rural area. The way the system is set up now, we have a voice in our democracy, and, I understand, being INCLUSIVE is extremely important to the legislators and our State. I am sure you do not want anyone - from the urban or rural area - to feel their vote is not valuable.
