Kittery, Maine 03904 USA
LD 1364

LD1364 is a healthy bill long overdue and needs recognition and passing as it contains sane & sensible composition in these days of unavailable protection of our natural environment, people, wildlife, and pollution. Yes, we can overcome, become more civilized. and stop harm at every level. LD 1364 is a giant step in getting this planet into real healthy evolution and WE the caring public depends on elevating right here in Augusta Maine State Legislature. Please pass it with glee & human gratefulness. Thank you , sj
