Kittery, Maine 03904 USA  
LD 988

We cannot use our University of Maine properties to become a place of solving problems, imaginary or otherwise, by a gun or by other lethal means. PLEASE do not vote for this bill 988. There are non-lethal means of animal control and must be used instead of murder of wildlife. It is time to teach peace & inclusion as an everlasting means of needed human civilization. Respect our wildlife and stop the insanity of killing any species, beings, people, or even an idea by plans of physical murder / killing / hunting. Our University of Maine property/properties must remain an honorable image of advancement firstly & forever. We must not advocate nor show how to solve a problem by a gun or other lethal means. Vote AGAINST this bill.  
thank you sj
