

D GORDON MOTT
Lakeville
LD 362

Senator Rotundo, Representative Gattine, Honorable Members:

In strong support of LD 362 to provide a bond for Land For Maine's Future I ask that you vote to continue this excellent program that has done so much for our public interest for decades.

In the face of the rapid expansion of world and local populations the only natural areas and places of common access and value that will be left will be those places we protect and set aside on our watch. LMF is essential in that process.

I speak as one who has seen the world population more than triple in one lifetime. Our future is significantly in your hands. Please vote in support.
