

April 8, 2025

Bangor, Maine-9:02pm- another Tuesday.

From the office of Steven Christopher Sheppard (“write-in” Republican candidate for Governor 2026) and current ET3 Navy veteran of war and Owner/President of “Stevision” YouTube.

I am Steven C. Sheppard born in March 1969- a Pisces; I was born in Alexandria, Virginia to Lane and Jean Sheppard. I am a submarine navy veteran ET3 with experiences in war, administration, government policy, sports, estimating, writing, politics, cytology, psychology, computer information and accounting personal wealth.

State and Local Government

LD 674 (Presented to you by the democratic Senator of the Penobscot Joe Baldacci)

“An Act to Create a History Education and Learning Mobile Unit Within the Maine State Archives”

As I am a Republican handicapped veteran “write-in candidate for Governor of Maine 2026 I implore you to vote!

-----“ought” or should vote yes!-----

Maine's Secretary of State Shenna Bellows gave excellent and thoughtful testimony to LD 674 online at the Maine Legislature.

Proceedings – – – – LD 674

Forward Note-

Gentleman, your Honors and Senators; Ladies, your Honors also and others, I have glad news for you this time! Your ideas to have a mobile unit (BMW or other Mobile Van) to serve the outside counties of Maine and far away towns and communities of Maine is grand with me here. Excellent ideas to come hopefully. Thanks to Shenna Bellows giving an excellent thoughtful testimony I will use these inherited Republican dynamisms to help committee and society love their Maine's history as I will add more to Shenna's explanation. The history of Maine is glad and prudent again.

Shenna Bellows our beloved and darling Secretary of State and democrat candidate for Maine Governor is well enough to be charitable through at least these lawful measures and testimonies concerning the history and archives of Maine. The archives and histories of Maine through their files and programs can be kept better compacted; kept mobile better now thanks to compact computer designs and those mobile compact computer labs to come.

History is divine again; in the past you had Dorothea Dix, Lord Chamberlain, Moses Sheppard and the Quakers that knew Moses Sheppard and the General Assembly of Maryland.

Robert E. Lee the great Civil War general argued well enough in the books I have sought- Maryland is democrat! Republicans own Republic.

The differences between democrat and Republican must begin with the divisions and separations of power through the greatest democratic state during the American Civil War- Maryland.

Maine and Maryland are now aligned again through my own story in history books and now computer files. "Moses Sheppard Quaker Philanthropist of Baltimore" by Bliss Forbush is on Amazon shopping. Surely Moses Sheppard and his bonded financial partnership with Dorothea Dix paid well to the Dorothea Dix hospital in Bangor.

As I am a great and knowledgeable historian again, I have found the crux clues needed to proceed with history here in Bangor, Maine through proper and modern committee this time.

Governance in the past had separated democrat and Republican; this was how Civil War became charitable and negotiable to most citizen and Quaker democrat around the Maryland General Assembly in Baltimore.

This story here is the recognition- the very core root *file to come.

Maine has "Quaker" history through Dorothea Dix and her hospital in Bangor, Maine. The political parties democrat and Republican that knew Dorothea Dix and Moses Sheppard

knew two treasures and two philanthropists of early Bangor, Baltimore and Maine.

This *file containing histories is true now again through Sheppard in me.

I have written and I have been published regarding this history I am speaking to you here on my file- testimony.

“Steve Sheppard Remembers Native Liberia Story”

Chester Smith – publisher, the Independent News. Monrovia, Liberia Africa. February 23, 2024

Provisions

The general provisions for the LD 674 legislation are when society is statistically more uneducated without this LD 674 bill.

When society has tried to be educated enough through their own educations, society will read on their own time and write properly on their own time when the epoch to express written language learned by American school is needed.

Not all of society will learn and engage with this idea to come LD 674 - - - - the mobile archives; mobile computer laboratory van workshop will attract a statistical amount of the “populations” that know about – the mobile unit designed with archives and computer workshops labs to research and use other coherent online programs to learn and learn however they “ought”.

With my heart I tell you democrat and Republican- you have been so misunderstood now; democrat is state owned divinity and Republican every other state of the Union and favorite state. Republican party was a “necessary” party when democrat was true to the celestial meaning and real stronger state governances in Maryland to begin parties and those lines.

Republicans and democrats will honor these population’s statistics when all Maine people know there is a mobile unit coming! Use audit, advertisement, conversation, email, phone and accountability to defend your LD 674 logic until you know the truth.

As our Constitutions rights are unceasingly disturbing from television, computer, social media, talk phone and sight, I warn Warner and up hold the rule of law when I testify-

Man is smart; computers are much smarter. Man has Constitutional rights.

Does a smart computer have Constitution rights also?

LD 674 is a smart idea for those that can navigate a computer properly without becoming toxic some more from other impossible logic.

The time has come to help again; help them learn, but please help them learn this history especially. There is no other way to defend Maine’s culture in the future.

The only way I foresee- limit computer applications to the programs and files that actually help to learn a good and glad

knowledge that stems from Maryland democrat to Maine- a part of the Republican and also democrat.

The computer needs to be judged also; limit exposure to the criminally or “mentally insane” criminal mastermind conversations.

End.

Steven Sheppard
Bangor
LD 281

----- Vote Yes! -----

LD 281 "An Act to Provide Support for Certain Maine Discovery Museum Science, Technology, Engineering and Mathematics Educational Programming Throughout the State."

I submitted a testimony to another act that is very similar to this act - LD 674 goes in conjunction with this act.

Together LD 674 and LD 281 could provide some interesting educational experiences utilizing a headquarters and having their "mobile unit/van" work side by side with these organizations around "science" and "engineering". The "mobile unit/van" suggested in act LD 674 could have compact computer labs inside the unit, and the van unit/mobile unit suggested by act LD 674 could carry a nice telescope to watch the night stars and surely look at the moon's surface. I would imagine that looking at the moon's surface will be exciting again for young people and those who have never experience a nice telescope.

The museum complexes also could keep a nice telescope and have events that collect a little fee to visit and watch the surface of the moon up close some more.

The telescope/the modern "mobile" unit/van and the complex of museum/science/technology and engineering needs to be interesting enough to help build more support for other acts involving a space port and other interesting scientific adventures.

As an amateur scientist and a petty third class ET# submarine navy I studied nuclear energy and I know that all Protactinium isotopes need to help the moon's gravity evolve more. The moon is starving for Earth energies; radioactive waste stored up upon the moon would be the ideal place as far as I can tell.

All the science and convention and modern instruments are necessary for young people and adults to stay busy thinking; staying interested in these ideas is critical for the guests and the clients to come.

----- Vote Yes! -----

Have a nice day,

Steven C. Sheppard ("write-in" Republican candidate for Governor of Maine
