

Lynne Tobin
West Boothbay Harbor
LD 613

Good morning,

My name is Lynne Tobin and I live in West Boothbay Harbor. I am a Licensed Professional Counselor and my primary field has been grief, loss and transition. My work experience was with hospice and teaching end-of-life skills. Currently, I volunteer with Death with Dignity and support the amendment to Waive the Wait.

Like most people, I thought getting older would help me to understand how the world works. But life is complicated. It isn't easy. If one is terminally ill, it's difficult enough in every way. One thing I do understand is that if someone has already been diagnosed as terminally ill and has six months or less to live, we don't have to make things more complicated or difficult for him. Let's waive the wait . It just is one thing that makes perfect sense.
