LD 613

Please support LD 613, An Act to Amend the Maine Death with Dignity Act to Ensure Access by Qualified Patients. This will allow those who have already gone through the deep process of being done with life to end their suffering. We have the needed guidelines of meeting with caring responsible doctors in place to ensure this is used as intended. The waiting period simple adds unnecessary suffering. Please vote to eliminate this waiting period and the added pain of those dying. Thank you for your consideration. Dee Webster
