Greetings,

I strongly urge you to defeat this bill. Our current electoral vote system allows CD 1 and CD 2 to each have a voice in our Presidential elections. This is a fair and equitable method.

The demographics between the two districts is so striking! One rural, one urban. Southern Maine, CD1, is so runover with liberal people from Massachusetts and New York. The population is so dense compared to traditional Maine in the northern CD 2. CD2 should have its own voice.

PLEASE let CD2 have a voice Please defeat this bill.
