LD 252

I am writing to support LD252. Our Electoral votes should display the true will of Maine voters, NOT the popular vote of other states and big cities throughout the nation!

Please keep in mind that had the present law (putting us into the National Popular Vote Compact) had been in effect during the November 2024 election, all 4 of Maine's Electoral votes would have gone to Donald J. Trump, even though according to the will of the people of Maine, she earned 3 of those votes!
