

I am writing in support of LD 252 – An Act to Withdraw from the National Popular Vote Compact. Maine never should have been in this compact to begin with. Our electoral votes should show the will of Maine voters, not the will of voters in other states in the U.S. This compact is attempting to change the method by which we elect presidents without using a constitutional amendment, thereby being unconstitutional itself. We have a constitutional process by which to do that, if voters so choose. This compact is not it. I do not want my voice being overshadowed by the popular vote of bigger states in the nation. Please protect the voices of Mainers and vote in support of this bill.
Thank you.

Amy M. McLaughlin
