I support LD 280. The 72 hour waiting period, violates my constitutional rights! The Maine constitution states " Every citizen has the right to bear arms and this right shall never be questioned"

if your right to free speach had 72 hour waiting period? You could not respond or voice an opinion till you had 72 hours to think over what you were going to say. Just in case your words were going to hurt someone. You'd think it ridiculous.

The 72 hour waiting period violates my constitutional rights plain and simple.
