LD 1529

Hello ACF Committee --

Please support LD 1529 to protect older growth forest stands and undeveloped lakes not yet conserved. All my Maine hiking and paddling and all my volunteering as a Maine Master Naturalist have made me keenly aware of how valuable, rare and threatened are our old growth forest and undeveloped lakes. These assets contribute in multiple ways to the ecological significance of Maine's natural resources. Without protection, these features will be lost. Thank you very much for your efforts to recognize and protect the best of Maine.
