

Janet Drew
York
LD 643

Testimony in support of LD 643

Senator Rafferty, Representative Murphy & members of the committee. Thank you for your work on this bill. My name is Janet Drew. I'm a retired nurse in York Maine, There is already evidence* of harms from the increasingly pervasive wireless technology associated with, not just the social media sites but also overexposure to radiation from the wireless devices and transmission infrastructure.

Industry denies the evidence of harm reported in thousands of studies, court findings, insurers carveouts, medicare diagnostic codes, NIH's Toxicology studies, NH Commission...

Now, as the technology and its uses are evolving ever more rapidly, testing, safety and regulatory response are lag behind, risking harms to Mainers & all US families

Help us catch up

Please support LD 643. Thank you
