

Hannah Lord
Portland
LD 1423

Senator Tepler, Representative Doudera and Honorable Members of the Committee of Environmental and Natural Resources, my name is Hannah Lord, and I live in Portland. I am writing to urge you to vote "Ought not to Pass" on LD 1423 - An Act to Improve Recycling by Updating the Stewardship Program for Packaging.

As a concerned community member of the beautiful state of Maine I am passionate about environmental issues that could impact our home. I am hoping we can protect our current EPR for packaging law. LD 1423 - An Act to Improve Recycling by Updating the Stewardship Program for Packaging would be a huge set back in our state. I believe in accountability for the producers that contribute to the packaging waste in our state.

For these reasons, and many more, I urge you to vote "Ought not to Pass" on LD 1423 - An Act to Improve Recycling by Updating the Stewardship Program for Packaging.

Thank you for your time.

In appreciation,

Hannah Lord
Portland
