Knox  
LD 1202

I urge you to support LD 1202 and establish an African American Studies Advisory Council and Provide Funding to Support African American Studies. Over 20 years ago, I served on a committee of Education Specialists with Maine Roads to Quality that developed a diversity curriculum for early childhood students. I am well aware the importance for students of all ages to be able to learn about their own heritage and that of those who are different. Maine students deserve a well thought out and thorough African American Studies curriculum. Thank you.
