

Karyn Jenkins  
Portland  
LD 1423

I support EPR for packaging, as in the law passed in 2022 which attempts to shift the cost cost of reducing & recycling to the producers of packaging waste and off the backs of the tax payers.

Over the last several years Maine DEP has conducted a public, transparent rules-making process with stakeholders. Now, in the 11th hour, industry & lobbyists want to add loopholes, off-ramps and exemptions to weaken the law before it even takes effect. I oppose LD 1423, I want producers to be responsible for all of the packaging waste they make.
