

1) To me seeing up close and personal; The Beneficial of This Program (LD 648) would not only give the Justice System control of someone's behavior, but also not to take it too far, so that the person involved, doesn't lose hope; just the most important thing in his or her's life: Their freedom to still be able to live their life, only after they have realized what it is to lose your life and everything in it!

Because if we don't have these kinds of real life Bills (LD 648) and no matter what this person has done, if you don't give this person the chance to help himself and don't be afraid to tell him he is doing good, because I don't care who you are or who you think you are, myself no matter what I did even if I didn't want to do it, because I as someone who needed that hug to say that were proud of me; it would have made all the difference, even after all these years being locked up (over 48 years all together) I still look for that pat on the back or that hug, no words needed, as desperate as I am; "I would be able to feel that Sincerely"!

It may be too late for me, but I know people here that "would" and "could" take

full advantage of that bill. This bill should be to punish, but don't over do it.

There needs to be more communication, you can't judge a book by the person who wrote it, find out why or do what you need to do to let that person know, you really want to know why. If you get someone to just "talk" you will find answers, the "answers" you need to pass such a Bill LD 648!

"Please" just don't turn this bill away, come sit down and talk to people individually, set up "Groups" of people and really listen to what they say!

Thank you for giving me this chance to be a part of trying for you people to realize, that there are people here that deserve that chance!

Sincerely Yours
