

Katie Goodwin  
Georgetown  
LD 1423

Dear Environment and Natural Resources Committee:

I oppose LD 1423. I read through the bill and to my understanding it is not a bill to improve recycling, it is a bill rolling back hard work done by the Environmental and Natural Resources Committee in 2021 to pass the Extended Producer Responsibility for Packaging law, which puts some of the responsibility of package recycling costs back in the hands of businesses and large corporations. I feel that this is fair and environmentally responsible, fiscally motivating businesses to consider their impact.

Thank you for your time. I very much appreciate your efforts and your continued support for Maine's future.

All my best,  
Katie
