Hello all,

As an avid snowmobile enthusiast, please consider increasing funding to the Maine Snowmobile Foundation and snowmobile trail maintenance and infrastructure. In the towns where I ride, the community is directly and positively impacted by the presence of snowmobilers, whose decision to journey to the great state of Maine is often decided by the condition, maintenance and breadth of options Maine trails provide. The local communities flourish from the increased tourism and a sense of snowmobile community is ever present and impactful in the regions lucky enough to operate trails. To preserve a world in which my children can both use and enjoy snowmobile trails to interact with the outdoors in the same way I have, please consider directing funding to this very worthy cause.
