

Suz Okie
Portland, ME / Reuse Maine
LD 1423

I'm writing to strongly oppose LD1423.

Packaging producers should be footing the bill for their wasteful tactics, not the consumer. This bill is simply an effort by those very producers to create loop holes, delays and exemptions.

Policy makers and advocates have worked long and hard on developing a well thought out EPR bill for the state of Maine. We should not let producers delay or weaken it any further.
