

Cathy Genthner  
Howland  
LD 1700

I am in support of LD 1700 as a way to save energy to help our schools, which are struggling financially. I am a candidate for the school board for SAD 31 and understand the challenges small, rural schools face. This bill would help our school budgets, as well as the environment. It is renewable energy and would lessen our dependence on oil. As a registered Maine Guide, we need to do what we can to protect our earth, especially in Maine where tourism depends on its natural beauty and resources.
