

Steve Eagles
Dresden
LD 622

Senator Nangle, Rep Crafts and members of the Transportation committee,
My name is Steve Eagles and I am a proud resident of Dresden Maine who happens to own a Bolt EUV and I wish to testify in support of LD 622 to put a surcharge on electric cars to contribute to the Maine highway funds. As a member of the Dresden Budget Review Committee I have been made aware of the cost of paving and maintaining roads which cost our taxpayers a great deal of money. The tax on gas in Maine is about \$.30 which goes mostly to roads and I pay none of that. My neighbors are aware that they are paying for my damage to the roads and I want to contribute. We are thrilled with our EV and paying an extra \$250. per year is an insignificant and thoroughly just fee which we should pay.
