My husband, my abuser. if h would have been hlp accountable for what he did 20yr ago, i with all my being, believe me and others, would not have had to go through all of this abuse.

the officers arrest him, Court rooms let him go.. i was put in the hospital, over a week due to his hands. he is charged with Domestic Violence agg Assault; kidnaping; domestic assault ; Obstructing report of a crime or injury; domestic violence terrorizing. On one arrest, August 2024. with no bail, within 2/3 weeks got it to 10,000 cash, another 2 weeks, down to 1,000 and out he went.. to do more and more harm to me and others in his path. if he is Not stopped, he Will kill mme. my life is worth living for. and Please do not think or say a piece of paper will keep him away, he has proven it does not effect him @ all. Yet we have to live in turmoil and on the run from him, he keeps living his best life, how is that fair. He kept me away from everyone, except his family. so i have to where to go to Be Safe. Not to mention all the nightmares, ptsd, etc. Please help us to say, No MORE.....
