Portland  
LD 1149

This bill would require people to show photo ID for both in-person and absentee voting.

As a senior citizen with chronic illness I have been voting absentee for the last several years. I research issues and candidates and am an informed voter. I have all the ID one might need, but my ability to stand in line, or be out of the house for very long is limited by my illness. Why is this bill making it harder for seniors like me to vote? Please vote no on LD 1149.
