Old Town
LD 1604

Dear ENR Committee,

Please pass LD 1604.

If we're all being poisoned, shouldn't we be fully aware of just how much and just how badly?

If the poisoning can't be completely stopped, we are counting on you because you have the power and opportunity on our behalf to monitor and establish standards to control it, along with making the testing affordable to your constituents who are living closest to the sources of the poisoning.

Thank you for your thoughtful consideration to please pass LD 1604.
