Nancy Barlow
Islesboro
LD 1231

Hi,My Name is Nancy Barlow and I live on Islesboro Maine.I have lived over here 8 years now and I have had to use thew ferry to be taken over to mainland by Ambulance.I became very sick pretty quickly with pneumonia and A Very High fever.I thank God that the Ferry was available.I find it very important to keep the ferry on Islands at night.Who knows what would of happened to me if I hadn't been able to get to hospital.And that goes for Every single person on this island if something awful was to happen and no Lifeflight available...Thank you and I sincerely hope I you will keep things the way they are
