LD 1351

WE are VERY strongly against LD 1351!!! WE should NOT be adding "specific" named issues when it comes to determining violations of criminal or civil law!!! This leaves a strong bias towards certain free speech, protest, and other belief structures. To want the genocide in Palestine to STOP , is NOT anti semitic!!!! GENOCIDE is NEVER acceptable and MUST be protested no matter the aggressor/perpetrator!!! PLEASE do NOT take away the opportunity for Mainers to speak to their concerns. Those who violate our laws MUST NOT be singled out because they support "human rights"! Otherwise, we will be going down a very slippery slope. PLEASE give this your very serious thoughts about what this bill could cause to happen. Thank you.
