

Mark Stevens
Winthrop
LD 411

Honorable Members of the Judiciary Committee:

Thank you for your service to our State. Please vote Ought Not to Pass on LD 411 - as written it provides no avenue of recovery or compensation for individuals who are the rightful owners of a firearm used in a crime that falls into the categories covered by this proposal, but who were not involved in the commission of the crime. Further, this proposal puts focus in inanimate objects and not the root cause of crime, which is a rejection of personal morality by some in our society. I would respectfully request that the Judiciary Committee consider supporting educational programs promoting morality and safety; that would be a much more effective action and a better use of the Committee's time.

Respectfully

Mark Stevens
