

Mark Stevens  
Winthrop  
LD 1463

Honorable Members of the Judiciary Committee:

Thank you for your service to our State. Please vote Ought Not to Pass on LD 1463. Is this an effort to ensure safety? Then is the Legislature considering similar requirements for vehicles and surplus equipment such as ladders, lifts, or staging since, according to the CDC, automotive injuries and falls contribute as much or more to injury and death statistics across the U.S. as firearms? Since the bill directs the State to contract with a company specializing in firearms destruction, this bill will not only reduce revenue but increase cost to the State. Please stop offering this useless politically motivated legislation and irresponsible spending.

Respectfully

Mark Stevens  
Winthrop, Maine
