We need to preserve absentee voting in Maine. I am a medically-vulnerable person, and sometimes the only way I can vote is by absentee ballot. By taking away our right to vote this way, you take away our right to vote. We need to make it easier to vote in Maine, not more difficult. We need absentee voting and many days of "early" voting, where we can visit our town office and vote in person, or drop off our absentee ballot. Maine has a large population of senior citizens, and they rely on having voting options.
