LD 1149

Having lived in Maine for 5.5 years, I wholeheartedly oppose LD1149. This is a voter suppression proposal that would not only put an undue burden on women and low income folks, but it would also eliminate ongoing absentee ballots, reduce voting drop boxes and more.

Maine has one of the highest voter turnout rates in the country. We should be extremely proud of that, as it is a cornerstone of democracy. This bill is a 'solution' looking for a problem; when in reality proposals like this are designed to roll back that high voter turnout of which we are so proud. I strongly urge you to vote no on LD1149.
