

Nancy Goodwin
Waterford
LD 1763

Dear Senator Baldacci, Representative Roberts, and distinguished members of the Committee:

As a lake front property owner I am writing to you to implore you to support LD1763 to ban Floating Camps on Maine Lakes. I believe these structures pose several threats to our incredible Maine waterways.

- The chance of sewage leaking directly into the water, with no opportunity to be filtered by the soil, makes floating camps infinitely more of a problem than camps on land.
- Our lakes face enough challenges without adding a large structure moored in shallow water disrupting fish habitat.
- And very selfishly, having a floating camp blocking the view and polluting the water near my property will surely lower my property values.

Thank you for your time and attention. I hope I can count on your support in banning these structures and preserving our lakes.

Sincerely,
Nancy Goodwin
