Testimony in support of LD 843, An Act to Continue Funding for the Health Insurance Consumer Assistance Program

Senator Bailey, Representative Mathieson, and Members of the Joint Standing Committee on Health Coverage, Insurance, and Financial Services:

I live in Brunswick and I am submitting these comments in support of LD 843, An Act to Continue Funding for the Health Insurance Consumer Assistance Program.

I would like to submit some feedback on the CAHC HelpLine and one of the HelpLine advocates, Mary. Mary and the HelpLine have been during the time I have been using insurance through Coverme.gov.

Mary is such a good advocate and individual. When renewing or looking around the market, I send her an email and she books me in once she has a free space. Coming up, I will have spoken to her three times and I'm very satisfied with her and the HelpLine. She's very knowledgeable, realistic and obviously a very good person.

Thank you for providing good representatives like her to those who cannot understand these nutty insurance issues and can offer her guidance and intellect.

Sincerely,
Amanda J.
