

Kathy Clark  
SWANS ISLAND  
LD 1231

I am the Ferry Advisory Board representative from Swans Island. I have talked to many people living on Swans Island and all are in favor of LD1231 having the ferries docked on the islands at night. All feel safer at night, knowing the ferry is there for an emergency. It is like knowing there is a fire station with fire trucks available for a fire - you don't use it everyday but know it is there if needed. The ferry being available for emergencies is very important to those of us who live on islands.
