

Marissa Rozenski
Mill Pond Health Center
LD 1231

I strongly encourage the passage of this bill requiring MSFS to dock ferries overnight on certain islands, in my case, specifically Swan's Island. As the current Director of Services of the Mill Pond Health Center located on Swan's Island, I am acutely aware of the health concerns of our residents and regular visitors. Docking the ferry on the mainland overnight would create a significant hardship to many individuals who may suffer a medical emergency and require transport.
