LD 1149

Voting in a Maine election is a privilege and a right for Maine residents who are citizens of the United States. To ensure election validity requires adherence to logical rules and procedures that ensure elections are not compromised by cheating or allowing non-residents and non-citizens to vote. To receive a valid photo ID, one must provide relevant documentation to substantiate the claim to residency and citizenship and the Secretary of State must not subvert this process by issuing photo ID's to those without the right to participate in elections. I urge the passing of LD 1149 and all other relevant legislation to restore public trust in the validity of Maine elections and I support Voter ID for ME which reflects the will of a majority of authorized Maine voters who are citizens. Please pass LD 1149.

Respectfully
Jill Folsom
