Windham
LD 1446

LD1446 is absolutely absurd legislation! Children of 16 years of age lack the maturity, education, experience and brain development to be tasked with the weighty responsibility of voting. They cannot serve in the military. They cannot legally drink alcohol or buy tobacco products, and they are barely able to obtain a license to drive a vehicle. These restrictions are made wisely.

I very strongly oppose this legislation and consider it ludicrous that anyone could or would support it.
