Please register my OPPOSITION to this bill. We own a private hobby kennel that houses hunting and field trial dogs. It is not a commercial facility and should not be regulated as such. We have high standards in the maintaining of our kennel and take a great deal of pride in our dogs and our kennel. Our kennel is inspected on an annual basis by our ACO and has never had a problem. It is not reasonable or practical for the Department to categorize us as an animal care facility and subject us to additional fees and regulations when all we do is house our personal pets.
