

Patricia Gorsun
Wells
LD 1723

Good morning, Senators and Representatives,

I am Patricia Gorsun . I am in favor of LD 1723. About nine years ago my husband Charles was diagnosed with Alzheimer's disease. It was an absolute shock to everyone and unfortunately he was forced into early retirement. His dementia accelerated very quickly and we had to sell our dream home to move to a place with no stairs and something we could afford. So we moved into a mobile home in Blueberry Ridge Park in Wells. With only his Social Security to live on because I was too young to retire and couldn't go to work because I had to take care of him, to pay doctor bills and prescriptions etc. In any event, the park rent has gone up substantially over and over and I have no idea how much longer I'll be able to stay here and take care of him and myself included. Such a sad state of affairs I know, but I really never thought that living in a mobile home would cost this much. I hope something can be done to slow down the rate rents are going up. We're definitely not the only ones who have this problem. Just in another way. Hopefully we can get this bill passed that is long overdue. Thank you.
