The Medical Marijuana program has provided me much more relief than ANY Recreational establishments ever could. There products are usually cleaner, less harsh on my body, I can get the actual MG amount when it comes to RSO products and Gummies. I need not fear judgement when I ask,

"Do you have anything that helps with BiPolar disorder?" Without a budtender having to skirt over legality sakes due to Recreational laws. I find that where I go medically I'm going to Mom and Pop shops not Name Brand out of State/Country shops, who are USING SLAVE WORK FROM REFUGEES. I do not want to allow Blood Money, Blood Cannabis into my System of how I shop for my Medicine. Medical Cannabis is Here for A Reason. IT IS HERE FOR PATIENTS. My mother had cancer, and she need Medical Cannabis to help her get by day by day. Whose to say I am not next in my family? It runs on both sides, breast cancer Male and Females.

Medical Cannabis is to Treat. Medical Cannabis is to Teach others about proper usage. Medical Cannabis is Needed to sustain our economy. Medical Cannabis is Saving Lives as we Live and Breathe.

Medical Cannabis is for all who need it. Do not Take This Away From Us.
