DO NOT PASS

I'm testifying against the passing of this bill. I have long communicated with other cannabis patients across the country comparing other Systems and I have time and time again have found that Maine has the best system out of anywhere in the country. There are problems in other States that we do not see in Maine because the correct measures were made when this law was passed. It will be a disaster to the businesses, employees, patients and communities which depend on the industry. This is an industry ending bill. An industry that I rely on for good, quality, accessible, and inexpensive medications.
