

Joe Gaudette
New England's Finest Organics
LD 104

Evening,

I am testifying against passing bill LD 104 in regards to mandatory testing requirements. This bill is essence destroys the medical cannabis community including myself. I am a caregiver who operates with one of the smaller licenses available at the moment. This combined with a part time job working for a separate grow makes up 100% of my yearly income which allows for bills to be paid on time, food on the table for my family and a roof over our head. Passing this bill would almost secure the closing of my small business and with it my means of making a living. Please do not pass this bill! Thank you for your time.
