

Melanie Bisson  
South Berwick  
LD 233

This is common sense legislation. It's outrageous to think otherwise! Biological males have no business being in biological female's locker rooms/bathrooms, or competing against them in sports programs. It's dangerous, and totally disrespects biological females. It's a travesty that women's sporting opportunities have been ruined by the State of Maine.

Many Maine politicians and unelected bureaucrats have totally disregarded the fact that a large majority of Americans (~80%) DO NOT want biological males competing against biological females, or have them in the girl's locker rooms/bathrooms!

Maine State law is superseded by Federal law. Maine must fully comply with Title IX Federal law.

I support LDs 233, 868, 1002, 1134, and 1704 and they "ought to pass."
