Committee on Environment and Natural Resources
Re: Support for LD 1786

Senator Tepler, Representative Doudera, and members of the committee,

I am writing in support of LD 1786, An Act to Require the Department of Environmental Protection to Provide Certain Information Regarding Perfluoroalkyl and Polyfluoroalkyl Substances to the Public and Private Drinking Water Well Owners.

I am a resident of Coombs Road in Brunswick, which was unfortunately heavily impacted by the firefighting foam spill at the airport hanger on the MRRA grounds last year. This bill would be beneficial to members of Coombs Road and the community at-large that has been impacted by these events. This bill would also continue to provide protection to future person(s) affected by PFAS in public water or private wells.

I urge you to vote "ought to pass" on LD 1786.
