LD 104

Dear Members of the Veterans and Legal Affairs Committee.

I would like to ask that you do NOT approve of Bill LD 104. An Act to Protect the Health of Medical Cannabis Patients and Streamline the Mandatory Testing of Cannabis. There are several reasons I ask that this bill Does NOT pass. The bill will be costly to the smaller producers of cannabis flower and products, there are not enough testing labs in the state and the standards for testing in the cannabis industry are inconsistent. This includes the equipment used in testing.

I would like to ask that you DO NOT pass LD 104 because it is not a benefit to the industry.

Thank you
